

**SRS4F31xx-100**

**USER'S GUIDE**

**SRS4Fxxxx-100**

**Stand-Alone Media Converter  
RS485/422 Copper to Fiber**

**SRS4F32xx-100**

Transition  
Networks

SRS4Fxxxx-100 series media converters connect RS485/422 copper cable to fiber-optic cable at asynchronous data rates up to 1.25 Mb/s.

The **SRS4F31xx-100** media converters use a male DB-9 port for the copper link:

Part Number	Port One - Copper DB-9 port	Port Two - Fiber-Optic
<b>SRS4F3111-100</b>	RS485/422 1200 m (4000 ft)*	ST, 1300 nm multimode 2 km (1.2 miles)**
<b>SRS4F3113-100</b>	RS485/422 1200 m (4000 ft)*	SC, 1300 nm multimode 2 km (1.2 miles)**
<b>SRS4F3114-100</b>	RS485/422 1200 m (4000 ft)*	SC, 1310 nm single mode 20 km (12.4 miles)**
<b>SRS4F3115-100</b>	RS485/422 1200 m (4000 ft)*	SC, 1310 nm single mode 40 km (24.8 miles)**
<b>SRS4F3116-100 (LX)</b>	RS485/422 1200 m (4000 ft)*	SC, 1310 nm single mode 60 km (37.3 miles)**
<b>SRS4F3117-100 (LH)</b>	RS485/422 1200 m (4000 ft)*	SC, 1550 nm single mode 80 km (49.7 miles)**

\* Maximum cable distance is 1200m (4000') @ <90 kb/s decreasing logarithmically to 92m (300') @ 500 kb/s.

\*\*Typical maximum cable distance. Actual distance is dependent upon the physical characteristics of the network installation.

## SRS4Fxxxx-100

The SRS4F32xx-100 media converters use a 6-position terminal block for the copper link:

Part Number	Port One - Copper 6-position terminal block	Port Two - Fiber-Optic
SRS4F3211-100	RS485/422 1200 m (4000 ft)*	ST, 1300 nm multimode 2 km (1.2 miles)**
SRS4F3213-100	RS485/422 1200 m (4000 ft)*	SC, 1300 nm multimode 2 km (1.2 miles)**
SRS4F3214-100	RS485/422 1200 m (4000 ft)*	SC, 1310 nm single mode 20 km (12.4 miles)**
SRS4F3215-100	RS485/422 1200 m (4000 ft)*	SC, 1310 nm single mode 40 km (24.8 miles)**

The SRS4F3129-100 media converters use a male DB-9 port for the copper link:

Part Number	Part One - Copper DB-9 Port	Port Two - Fiber Optic
SRS4F3129-100	RS485 1200 m (4000 ft)*	SC, 1310TX/1550RX nm, single mode 20 km (12.4 miles)**
SRS4F3129-102	RS485 1200 m (4000 ft)*	SC, 1550TX/1310RX nm, single mode 20 km (12.4 miles)**
SRS4F3129-103	RS485 1200 m (4000 ft)*	SC, 1310TX/1550RX nm, single mode 40 km (24.8 miles)**
SRS4F3129-104	RS485 1200 m (4000 ft)*	SC, 1550TX/1310RX nm, single mode 40 km (24.8 miles)**

The SRS4F32xx-100 media converters use a 6-position terminal block for the copper link:

Part Number	Part One - Copper -6- position terminal block	Port Two - Fiber Optic
SRS4F3229-100	RS485 1200 m (4000 ft)*	SC, 1310TX/1550RX nm, single mode 20 km (12.4 miles)**
SRS4F3229-101	RS485 1200 m (4000 ft)*	SC, 1550TX/1310RX nm, single mode 20 km (12.4 miles)**
SRS4F3229-102	RS485 1200 m (4000 ft)*	SC, 1310TX/1550RX nm, single mode 40 km (24.8 miles)**
SRS4F3229-103	RS485 1200 m (4000 ft)*	SC, 1550TX/1310RX nm, single mode 40 km (24.8 miles)**

\* Maximum cable distance is 1200m (4000') @ <90 kb/s decreasing logarithmically to 92m (300') @ 500 kb/s.

\*\*Typical maximum cable distance. Actual distance is dependent upon the physical characteristics of the network installation.

## Installation

**CAUTION:** Wear a grounding device and observe electrostatic discharge precautions when setting the switches. Failure to observe this caution could result in damage to, and subsequent failure of, the media converter.

### Set the 6-Position Switch

The 6-position switch is located on the side of the media converter. Use a small flat-blade screwdriver or a similar device to set the recessed switches. Refer to the drawing for the locations of the six individual switches.

#### Switch 1 - 130 ohm resistor on “receive”

up = Disable  
down = Enable (Switch 5 must also be set to “4-wire” (down))

When enabled, switch 1 inserts a 130 ohm resistor on the wire pair:

- Receive (-) (B) RS485 4-wire, receive (-) RS422
- Receive (+) (A) RS485 4-wire, receive (+) RS422

#### Switch 2 - 130 ohm resistor on “transmit”

up = Disable.  
down = Enable. (Switch 5 must also be set to “2-wire” (up))

When enabled, switch 2 inserts a 130 ohm resistor on the wire pair:

- Transmit/Receive (-) (B) RS485 2-wire, transmit (-) RS422
- Transmit/Receive (+) (A) RS485 2-wire, transmit (+) RS422

#### Switch 3 - 1K ohm “pull-down”

up = Disable.  
down = Enable. (Switch 5 must also be set to “2-wire” (up))

When enabled, switch 3 enables a 1K ohm pull-down on the wire:

- Transmit/Receive (-) (B) RS485 2-wire, transmit (+) RS422

## Installation -- Continued

### Set the 6-Position Switch -- continued

Switch 4 - 1K ohm "pull-up"

up = Disable

down = Enable (Switch 5 must also be set to "2-wire" (up))

When enabled, switch 4 enables a 1K ohm pull-up on the wire:

- Transmit/Receive (+) (A) RS485 2-wire, transmit (+) RS422

Switch 5 - 2-wire / 4-wire

up = 2-wire

down = 4-wire

Set switch 5 to 2-wire (up) to enable the wire pair:

- Transmit/Receive (-) (B) RS485 2-wire, transmit (-) RS422
- Transmit/Receive (+) (A) RS485 2-wire, transmit (+) RS422 for RS422 2-wire, half-duplex operation

Set switch 5 to 4-wire (down) to enable the wire pair:

- Receive (-) (B) RS485 4-wire, transmit (-) RS422
- Receive (+) (A) RS485 4-wire, transmit (+) RS422 for RS422 4-wire, full-duplex operation

Switch 6 - RS485 / RS422

up = RS485

down = RS422

Set switch 6 to RS485 (up) to prevent echo in the 2-wire mode.

Set switch 6 to RS422 (down) to allow "transmit only" for the wire pair:

- Transmit/Receive (-) (B) RS485 2-wire, transmit (-) RS422
- Transmit/Receive (+) (A) RS485 2-wire, transmit (+) RS422

## Installation -- Continued

### Install the Copper Cable (DB-9 port)

Install the copper cable as instructed if the media converter has a DB-9 copper port (SRS4F31xx-100 models).

**Note:** Shielded RS485/422 cables are required for EMC compliance.

1. Locate or build RS485/422 cables with a female DB-9 connector on one end and a DB-9 connector that is compatible with the other device on the other end of the cable.
2. Connect the female DB-9 connector at one end of cable to the male DB-9 port on the SRS4F31xx-100 media converter.
3. Connect the DB-9 connector at the other end of the cable to the DB-9 port on the other device.

### Install the Copper Cable (6-position terminal block)

Install the copper cable as instructed if the media converter has a 6-position terminal block (SRS4F32xx-100 models).

**Note:** Shielded RS485/422 cables are required for EMC compliance.

1. Locate or build RS485/422 cables with the six individual wires stripped at both ends.
2. Insert the individual wires at one end of cable into the six terminal block ports on the SRS4F32xx-100 media converter.
3. Insert the individual wires at the other end of the cable into the six terminal block ports on the other device, matching the same color of cable with the number of the port.

## Installation -- Continued

### Install the Fiber Cable

1. Locate or build fiber cable with male, two-stranded TX to RX connectors installed at both ends.
2. Connect the fiber cables to the SRS4Fxxxx-100 media converter as described:
  - Connect the male TX cable connector to the female TX port.
  - Connect the male RX cable connector to the female RX port.
3. Connect the fiber cables to the other device (*another media converter, hub, etc.*) as described:
  - Connect the male TX cable connector to the female RX port.
  - Connect the male RX cable connector to the female TX port.

### Power the Media Converter

#### AC

1. Install the power adapter cord to the back of the media converter.
2. Connect the power adapter plug to AC power.
3. Verify that the media converter is powered by observing the illuminated LED power indicator light.

#### DC

Consult the user's guide for the Transition Networks SPS1872-xx DC external power supply for powering the media converter.

## Operation

After installation, the media converter should function without operator intervention. Use the status LEDs to monitor the media converter operation in the network.

PWR	On	The media converter is connected to external power.
RXF	On	A link has been established with the fiber link.
RXC	On	Data has been received on the copper link.
	Flashing	Data is transferring on the copper link.

SRS4F31xx-100

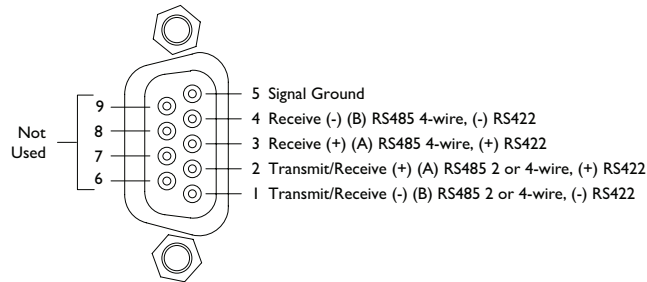

SRS4F32xx-100

## Cable Specifications

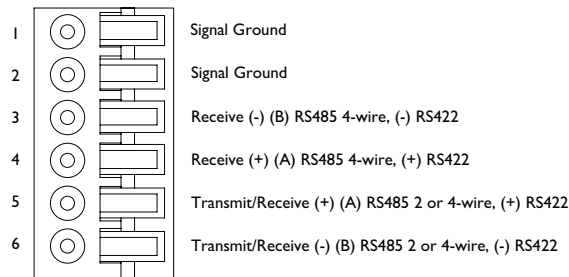

### RS485/422 Copper Cable

Maximum Data Rate:	1.25 Mb/s
Gauge:	24 to 22 AWG
Maximum Cable Distance:	1200m (4000 ft) @ <90 kb/s decreasing logarithmically to: 92m (300 ft) @ 500 kb/s

DB-9 Port:

6-Position Terminal Block:

## Fiber Cable

## Technical Specifications

For use with Transition Networks Model SRS4Fxxxx-100 or equivalent

Data Rate	0 to 1.25 Mb/s
Dimensions	3.25" x 4.7" x 1.0" (83 mm x 119 mm x 25 mm)
Shipping Weight	10 oz. (283 g) approximately
Power Consumption	5 Watts
MTBF	51,000 hours (MIL217F2 V5.0) (MIL-HDBK-217F) 127,000 hours (Bellcore7 V5.0)
Power Supply	12VDC, 0.8 Amp (North. Am., EU, Japan, South Am.) 12VDC, 1.25 Amp (UK, Australia, N.Z., South Africa)
Environment	Tmra*: 0 to 50°C (32° to 122° F) Storage Temp: -40° to 85°C (-40° to 185°F) Humidity: 5 to 95%, non condensing Altitude: 0 to 10,000 feet
Warranty	Lifetime

\*Manufacturer's rated ambient temperature.

The information in this user's guide is subject to change. For the most up-to-date information on the SRS4Fxxxx-100 media converter, view the user's guide on-line at: [www.transition.com](http://www.transition.com)

**Note:** The chassis version of the media converter is SRS4Fxxxx-100. For more information, see the SRS4Fxxxx-100 user guide on-line at: [www.transition.com](http://www.transition.com).

Product is certified by the manufacturer to comply with DHHS Rule 21/CFR, Subchapter J applicable at the date of manufacture.

**CAUTION:** Visible and invisible laser radiation when open. Do not stare into the beam or view directly with optical instruments.

**CAUTION:** Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure.

### Optional Accessories (sold separately).

Part Number	Description
<b>SPS-1872-SA</b>	Optional External Power Supply; 18-72VDC Stand-Alone Output: 12.6VDC, 1.0 A
<b>SPS-1872-PS</b>	Optional External Power Supply; 18-72VDC Piggy-back; Output: 12.6VDC, 1.0 A
<b>E-MSR-04</b>	12-Slot media converter Rack (includes universal internal power supply) 17 x 15 x 5 in. (432 x 381 x 127 mm)
<b>WMBL</b>	Length: 4.0 in. (102 mm), Fits converter length: 4.7in (119mm)
<b>WMBV</b>	Optional Vertical Mount Bracket; 5.0 in. (127 mm)
<b>WMBD</b>	Optional DIN Rail Mount Bracket; 5.0 in. (127 mm)
<b>WMBD-F</b>	Optional DIN Rail Mount Bracket (flat); 3.3in. (84 mm)

## Troubleshooting

If the media converter fails, isolate and correct the failure by determining the answers to the following questions and then taking the indicated action:

1. Is the PWR (*Power*) LED on the media converter illuminated?
  - NO
    - Is the power adapter the proper type of voltage and cycle frequency for the AC outlet? (See “Power Supply DC Output.”)
    - Is the power adapter properly installed in the media converter and in the grounded AC outlet?
    - Does the grounded AC outlet provide power?
    - Contact Technical Support: US/Canada: 1-800-260-1312, International: 00-1-952-941-7600.
  - YES
    - Proceed to step 2.
  
2. Is the RXC LED illuminated when data is sent across the RS485/422 copper link?
  - NO
    - Check the RS485/422 copper cable for proper connection.
    - Contact Technical Support: US/Canada: 1-800-260-1312, International: 00-1-952-941-7600.
  - YES
    - Proceed to step 3.
  
3. Is the RXF (*fiber link*) LED illuminated?
  - NO
    - Disconnect and reconnect the fiber cables to restart the initialization process.
    - Verify that the TX and RX cables on the media converter are connected to the RX and TX ports, respectively, on the other media converter.
    - Contact Technical Support: US/Canada: 1-800-260-1312, International: 00-1-952-941-7600.
  - YES
    - Proceed to step 4.
  
4. Does the data fail to move across the link, even though both RXC and RXF LEDs are illuminated?
  - YES
    - Check switches 5 and 6 (page 3) for proper configuration and check the the RS485/422 cables for proper connection.
    - Contact Technical Support: US/Canada: 1-800-260-1312, International: 00-1-952-941-7600.
  - NO
    - Contact Technical Support: US/Canada: 1-800-260-1312, International: 00-1-952-941-7600.

## Declaration of Conformity

<b>TRANSITION NETWORKS®</b>		<b>Declaration of Conformity</b>	
Name of Mfg:	Transition Networks 10900 Red Circle Drive, Minnetonka MN 55343 U.S.A.		
Model:	SRS4Fxxxx-10x Series Media Converter		
Part Number:	SRS4F3111-100, SRS4F3113-100, SRS4F3114-100, SRS4F3115-100, SRS4F3211-100, SRS4F3213-100, SRS4F3214-100, SRS4F3215-100, SRS4F3129-100, SRS4F3129-101, SRS4F3129-102, SRS4F3129-103, SRS4F3229-100, SRS4F3229-101, SRS4F3229-102, SRS4F3229-103

## Compliance Information

### CISPR22/EN55022 Class A + EN55024

#### CE Mark

#### FCC Regulations

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at the user's own expense.

#### Canadian Regulations

This digital apparatus does not exceed the Class A limits for radio noise for digital apparatus set out on the radio interference regulations of the Canadian Department of Communications.

Le présent appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la Class A prescrites dans le Règlement sur le brouillage radioélectrique édicté par le ministère des Communications du Canada.

#### European Regulations

##### Warning

This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

##### Achtung !

Dieses ist ein Gerät der Funkstörgrenzwertklasse A. In Wohnbereichen können bei Betrieb dieses Gerätes Rundfunkstörungen auftreten. In diesem Fall ist der Benutzer für Gegenmaßnahmen verantwortlich.

##### Attention !

Ceci est un produit de Classe A. Dans un environnement domestique, ce produit risque de créer des interférences radioélectriques, il appartiendra alors à l'utilisateur de prendre les mesures spécifiques appropriées.

CAUTION: RJ connectors are NOT INTENDED FOR CONNECTION TO THE PUBLIC TELEPHONE NETWORK. Failure to observe this caution could result in damage to the public telephone network.

Der Anschluss dieses Gerätes an ein öffentliches Telekommunikationsnetz in den EG-Mitgliedstaaten verstösst gegen die jeweiligen einzelstaatlichen Gesetze zur Anwendung der Richtlinie 91/263/EWG zur Angleichung der Rechtsvorschriften der Mitgliedstaaten über Telekommunikationsendeinrichtungen einschliesslich der gegenseitigen Anerkennung ihrer Konformität.

In accordance with European Union Directive 2002/96/EC of the European Parliament and of the Council of 27 January 2003, Transition Networks will accept post usage returns of this product for proper disposal. The contact information for this activity can be found in the 'Contact Us' portion of this document.
