

Product End-of-Life Notice

September 7, 2006

Dear Valued Customer / Partner:

The purpose of this letter is to serve written notice of Transition Networks' intent to discontinue the CDFTF series of Dual Fast Ethernet media converter modules. This series of converters offers dual fiber ports and is designed to be used in Transition's Telco Point System Chassis (CPSMC1850-150) which used two high-density RJ-21 ports for the copper connections. The converters are being discontinued due to the end-of-life status of a key component used in the products.

Transition Networks will officially discontinue the following models:

Model	Description
CDFTF1111-100	Dual Fast Ethernet ports 100Base-FX 1300nm MM ST 2km
CDFTF1313-100	Dual Fast Ethernet ports 100Base-FX 1300nm MM SC 2km
CDFTF1414-100	Dual Fast Ethernet ports 100Base-FX 1310nm SM SC 20km
CDFTF1515-100	Dual Fast Ethernet ports 100Base-FX 1310nm SM SC 40km
CDFTF1616-100	Dual Fast Ethernet ports 100Base-FX 1310nm SM SC 60km
CDFTF1717-100	Dual Fast Ethernet ports 100Base-FX 1550nm SM SC 80km
CDFTF2929-100	Dual Fast Ethernet ports 100Base-FX 1310TX / 1550RX SM SC 20km
CDFTF2929-101	Dual Fast Ethernet ports 100Base-FX 1550TX / 1310RX SM SC 20km
CDFTF2929-102	Dual Fast Ethernet ports 100Base-FX 1310TX / 1550RX SM SC 40km
CDFTF2929-103	Dual Fast Ethernet ports 100Base-FX 1550TX / 1310RX SM SC 40km

Note: The CPSMC1850-150 chassis was discontinued on May 1, 2005.

Final Order Date / Final Ship Data:

These converters will be available through 10/31/06 or while supplies last.

Replacement Product:

Transition Networks will not be offering a direct replacement product. Please contact your Transition Networks sale representative for a complete list of available media converters.

Closing:

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,

Transition Networks Management Team
