

Product End of Life Notice

March 4, 2008

Dear Valued Customer / Partner:

This letter is to serve as written notice of Transition Networks' intent to discontinue the remaining Ethernet and Fast Ethernet media converter modules from the legacy Conversion Center product line.

Transition Networks will officially discontinue the following models:

Model	Description
C/E-TBT-FRL-04	10Base-T RJ-45 to 10Base-FL MM ST 2km converter module
C/E-TBT-FRL-04(SC)	10Base-T RJ-45 to 10Base-FL MM SC 2km converter module
C/E-TBT-FRL-04(SM)	10Base-T RJ-45 to 10Base-FL SM ST 20km converter module
C/E-100BTX-FX-05	100Base-TX RJ-45 to 100Base-FX MM ST 2km converter module
C/E-100BTX-FX-05(SC)	100Base-TX RJ-45 to 100Base-FX MM SC 2km converter module
C/E-100BTX-FX-05(SM)	100Base-TX RJ-45 to 100Base-FX SM SC 20km converter module

Availability:

Transition Networks is currently offering a last-time-buy opportunity for these converters, however they will only be available while supplies last.

Replacement Product:

Transition Networks will not be offering a direct replacement product.

The Point System platform was introduced as an upgrade to the Conversion Center. It offers enhancements in network management, greater port density, and support for a wider variety of media converter modules. Moving to the Point System for new media conversion projects requires both a new chassis and new converter modules. It should be noted that Point System modules are not backwards compatible with the Conversion Center chassis.

Closing:

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,

The Transition Networks Management Team
