Product Discontinuation Notice

November 17, 2008

Dear Valued Customer / Partner:

Transition Networks would like to inform you that the following product, E-TBT-FRL-05(MT), will be going end-of-life (EOL). This product is a copper-to-fiber media converter with an MT-RJ fiber interface designed for legacy 10Base Ethernet networks.

Discontinued Product:

Model	Description
E-TBT-FRL-05(MT)	10Base-T RJ-45 to 10Base-FL 850nm multimode MT-RJ 2km

Replacement Product:

Transition Networks will not be offering a direct replacement product. However the remainder of the E-TBT-FRL-05 product line will continue to be available for 10Base-T to 10Base-FL conversions while supporting both the ST and SC fiber connectors.

Last Order Date:

Orders will be accepted for the E-TBT-FRL-05(MT) through 12/26/08 or while supplies last.

Closing

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,

Transition Networks Management Team
