

Product Replacement Notice

September 23, 2008

Dear Valued Customer / Partner:

Effective today, Transition Networks is discontinuing the E-MCR-04 media converter rack for stand-alone media converters and replacing it with the new E-MCR-05. The replacement of the E-MCR-04 is due to the end-of-life status of the power supply used in this device. While the new E-MCR-05 is direct functional replacement for the E-MCR-04, its design has been enhanced to provide an improved method for mounting the stand-alone converters.

<u>Discontinued Product</u>	<u>Replacement Product</u>	<u>Description</u>
E-MCR-04	E-MCR-05	12-slot Media Converter Rack

Availability:

Transition Networks is no longer able to accept orders for the E-MCR-04, however the E-MCR-05 is in stock and available to ship.

Closing:

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,

Transition Networks Management Team
