

Product Replacement Notice

October 12, 2007

Dear Valued Customer / Partner:

Transition Networks will be discontinuing the J/FE-CF-03 series of Fast Ethernet media converters and replacing them with the new J/FE-CF-04 series. As part of Transition Networks' family of "Just Convert-it" media converters, these are lower priced media converter offering a smaller feature set. The discontinuation of the J/FE-CF-03 was due to the end-of-life status on key components used in this product. While the new -04 version provides the same functionality, providing connectivity between 100Base-TX ports and 100Base-FX ports, it also offers some new features such as support for LC optics and the option of utilizing a USB power source.
