

Product End of Life Notice

February 21, 2008

Dear Valued Customer / Partner:

This letter is to serve as written notice of the intent of Transition Networks to discontinue the remaining Twinax Baluns from our System 3X/AS400 Balun product line. These twinax baluns are used to replace twinax cable with lower-cost twisted pair cable while connecting workstations to 3X or AS400 systems in either a daisy chain or star type topology.

Transition Networks will officially discontinue the following models:

Model	Description
3-4512	Twinax to twisted pair balun with RJ-45 active pins 1 & 2
3-4545	Twinax to twisted pair balun with RJ-45 active pins 4 & 5
3-4554	Twinax to twisted pair balun with RJ-45 active pins 5 & 4

Availability:

The twinax baluns will be available through April 30, 2008 or while supplies last.

Replacement Product:

Transition Networks will not be offering a replacement product.

Closing:

We look forward to new opportunities to support your networking requirements with our comprehensive product line. Should you have any questions, please contact your sales representative.

Sincerely,

The Transition Networks Management Team
