

Installation Guide

FocalPoint™ 2.0 Management Application for the *PointSystem™ Chassis*

Supported System Configurations:

Microsoft Windows 98 or higher.
Microsoft Windows NT 4.0 (x86), HP OpenView NNM 5.0 or higher (optional).
Sun Solaris 5.0 or higher, HP OpenView NNM 6.0 or higher (optional).
HP-UX 10.20 or higher, HP OpenView NNM 6.0 or higher (optional).
(See the README.TXT file on the CD for more information.)
Java Runtime Engine 2 v1.4.0 or higher.

Installation:

Windows™

Select **[Start]** | **[Run]** and enter `\TransitionNetworks\win\setup.exe` in the text box. Click **[OK]**.

UNIX

Mount the CD and run the installation Bourne shell script:
`\<CD mount point>\TransitionNetworks\unix\install.sh`

CPSMM-100 Firmware:

In addition to the *FocalPoint™ 2.0* application, the CD contains the most recent version of the CPSMM-100 firmware (which can be found in the "firmware" directory). The firmware supports all of the features of the enclosed *FocalPoint™ 2.0* application as well as all Transition Network slide-in-modules that are available at the time the CD was produced.

When the firmware is out of date (e.g., when a new slide-in-module is installed in a network that is not supported by the current version of the firmware), the *FocalPoint™ 2.0* graphical user interface (GUI) will display text instead of a drawing of the slide-in-module. This is a good indication that the firmware is due for an upgrade.

Transition Networks recommends that the CPSMM-100 firmware be upgraded each time the *FocalPoint™ 2.0* application is upgraded.

Transition Networks also recommends that the firmware be upgraded upon the receipt of a newly-shipped CPSMM-100 module -- since the firmware on the CD is, most likely, more recent than the firmware on the module.

Additional Information:

For more information on installing the *FocalPoint™ 2.0* Management Application or the CPSMM-100 firmware, see the README.TXT file on the CD.

For more information on registering and running a program under HP OpenView, see the documentation provided by Hewlett Packard.

Technical Support:

For any questions about installing or running the *FocalPoint™ 2.0* Management Application or the CPSMM-100 firmware, contact Transition Networks Technical support via phone, chat, or email:

Technical support is available 7:00 AM - 6:00 PM CST (GMT -6:00)
US and Canada: **1-800-260-1312** International: **00-1-952-941-7600**
