

ION106-x Release Notes

Date: November 1, 2018

Version: 1.3.16

Overview

This release note covers the requirements, important notes, new features and changes, addressed issues, and known limitations for the ION 6-slot chassis, model ION106-x.

The management data from the ION106-x is available via access to the IONMM using a web browser, FocalPoint, or Command Line Interface (CLI) via the local USB port or telnet. Management is also available via SNMP.

Requirements:

Firmware version 1.3.16 and these release notes apply to the following products:

- ION106-A
- ION106-D

New Features and Enhancements:

The following is a list of new features and enhancements in version 1.3.16

- Added support for remote management of the power supply modules in an un-managed chassis (works in conjunction with the IONMM 1.4.2 and C322x 1.3.17)
